DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: as to claims 1-7, patentability resides, at least in part, in the modularized electronic device assembly architecture for the assembly of a modularized electronic device to a base chassis comprising a supportive base; a mounting area with a guide structure; a bracket formed with a pivoting point on one side thereof; and a hand-turnable reciprocating device, formed with a rotating portion being substantially a cylindrical disk having axis pivotally linked to the pivoting point on the bracket so as to be pivotally turnable about the pivoting point, a spirally-extending rail portion which extends along the cylindrical surface of the rotating portion and is meshable to the guide structure, and a handle portion being an elongated bar structure having one end linked to the rotating portion and the other end being a free end, as claimed and in combination with the other limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the teachings of Geist et al. (5077722), Siahpolo et al. (5481431), Becker et al. (5721669), Jung (6069789), Tucker et al. (6622014), Yen-Kuang (6515855), Lee et al. (6606256), and Song et al. (6927973). It is noted that the prior art of record does not
